Delivering seamless international tax consulting

Crowe specialists use in-depth knowledge of international tax legislation, regulations, and reporting to help you navigate global tax complexities. We focus our tax planning services on helping you identify opportunities to maximize your investment with tax planning that incorporates:

- International corporate structuring and supply chain
- Intellectual property
- Cash repatriation
- Foreign tax credit
- The *Foreign Account Tax Compliance Act* (FATCA)
- Base Erosion and Profit Shifting (BEPS) corporate tax transparency

Our international tax services are connected to a network of highly skilled specialists through Crowe International, one of the 10 largest networks in the world. As a leading North American member, our reputation for high-quality tax and business expertise is the foundation for delivering comprehensive services to multinational organizations around the globe.

Reducing income tax accounting uncertainties

Crowe provides the resources to help your organization identify the root causes of persistent income tax accounting challenges. We can help multinational organizations with foreign operations integrate the appropriate processes, systems, controls, and people to:

- Understand what drives local and global effective tax rates
- Interpret the impact of accounting rule changes on the tax provision
- Reduce the risk of misrepresentations and material weaknesses
- Improve financial statement accuracy

Whether for staffing resources, technical expertise, or outsourcing the entire tax provision process, our services are tailored to meet your unique needs. We also use technology to promote high-quality service and timely delivery.

Taking a proactive approach to global transfer pricing

Crowe helps multinational organizations reduce uncertainty in measuring and reporting the results of transactions across diverse tax jurisdictions. Our experience includes helping companies address complex international tax issues related to transfer pricing.

Our tax team's expertise is enhanced by professionals who can provide insights into the intricacies of transfer pricing analyses as well as guidance on tax transactions.

Crowe offers the resources and experience to help:

- Assemble required documentation
- Resolve disputes with domestic and foreign tax authorities
- Prepare advance pricing agreements
- Determine tax implications of intellectual property
- Assess risk and opportunity in cross-border transactions
- Reduce transfer pricing risks with comprehensive tax due diligence
- Substantiate good faith efforts to establish and maintain "arm's-length" pricing
- Provide a "best-efforts" platform for effective and efficient resolution of transfer pricing inquiries
- Develop proactive strategies for interactions with each country of operation
- Implement Organisation for Economic Co-operation and Development (OECD) documentation requirements

Quantifying international export incentives

Crowe can assist in the development and implementation of an export incentives strategy. We help U.S. exporters identify whether their foreign sales qualify as export transactions and help maximize the benefits available through the use of an IC-DISC. C corporations, subchapter S corporations, limited liability companies, or partnerships can take advantage of our turnkey solutions to claim the benefits of an IC-DISC on qualified export sales.

Our experienced tax specialists can analyze and review your requirements for establishing and operating an IC-DISC. We can also file your election, prepare the necessary forms, and help optimize potential benefits for the current and, in some cases, prior years including:

- Permanent savings on export income
- Management incentive opportunities
- Estate planning opportunities
- Increased cash flow for shareholders

Managing global workforce mobility

Crowe specialists are dedicated to keeping you and your foreign-based employees aware of the tax implications surrounding global assignments. We can assist in tax-efficient planning and management of expatriate and inpatriate assignments to and from foreign jurisdictions.

You can rely on our expertise in preparing domestic and foreign personal income tax returns. We can also administer hypothetical tax, equalization, and gross-up calculations within the framework of unique international policies and agreements. Crowe global mobility specialists evaluate available options to help you:

- Minimize tax costs incurred by employers
- Mitigate the effects of international employees' individual tax liabilities
- Lower tax costs while avoiding costly problems

Improving indirect tax management

Many countries impose some form of value-added tax (VAT) or goods and services tax (GST) as a principal source of public finance. Crowe VAT practitioners can help multinational organizations reduce uncertainty in measuring and reporting the tax implications of transactions in and across a wide range of jurisdictions. Our services focus on maintaining compliance and enhancing efficiencies through management, control design, process improvement, and refund and recovery.
