Clients

Crowe Soberman has built its reputation in Ontario working with mid-sized businesses and high-net-worth individuals. Our size allows us to focus on building close relationships with our clients to learn about their aspirations and objectives and then work with them to maximize their growth potential and achieve their financial goals.

As a firm of Chartered Professional Accountants, we work with many private and family-owned businesses, professional service

firms, not-for-profit organizations and individuals. We also work with larger, multi-national companies, both public and private.

It would be our sincere pleasure to work with you.

Our Approach to Working with You

Our goal is to work with clients as part of their strategic advisory team. Partners are the prime business advisors who work closely with individuals, owners or managers to understand the business objectives. Our business model allows partners and senior professionals to have a very hands-on approach.

We also provide value by taking a holistic approach to client service. Many business owners view their businesses as extensions of themselves; that's why we strive to understand and consider what is important to you, your family and your company.

Crowe Soberman provides audit, review, and other attest services to mid-sized companies, both private and public.

However, we feel that in today's dynamic business environment, clients and other users of financial statements often require more than simple compliance activities. Crowe Soberman professionals believe audits should offer opportunities to develop a better understanding of your business and the business risks that you face in your particular industry. We strive to go beyond the norm, to recommend improvements to business processes, to improve the quality of the information your system generates, to develop useful management reports, and to organize and interpret financial information to help you make the best decisions for your company.

As a mid-sized entrepreneurial firm, Crowe Soberman has the resources, experience and skills to handle SMEs or family-owned businesses to large, complex organizations. Our size also allows us to have the flexibility necessary to deliver close personal service at the partner level.
