# Is your business truly tax efficient?

Every day – somewhere in the world – tax regulations, rules, and treaties change. Strategies that reduced taxes yesterday may not work today. New opportunities to save money could be missed – especially as you enter new markets. The talented tax staff in your organization might not have time to keep up with each nuance. Your current tax advisor may think your company is too small for personal attention – or your advisor may be too small to serve you.

# Solutions tailored to your tax challenges.

*Successful companies consider tax implications before they make business decisions, so they do not pay more than their legal obligation. This makes international tax compliance, consulting, and structuring a crucial element in your global strategy.*

---

Crowe Horwath International member firms have a proven three-step tax process to help their clients make more tax-savvy decisions throughout the year. We begin by listening to the tax issues you face – such as structure transfer pricing, cross-border transactions, real estate transactions, VAT and customs, foreign tax credits, tax efficient ownership structures, and the personal tax situations of executives relocating overseas.

Then we create the right team to assist you – drawing on the knowledge, skills, and resources of nearly 20,000 professionals around the world. Only then do we take the final step: to develop the exact solution to meet your tax needs – not only for today, but as you continue to expand. We also can provide business and financial services to help with the other challenges you face.
