

A photograph of a city skyline at sunset. The sky is filled with warm, golden light and scattered clouds. The sun is positioned behind a tall, cylindrical building on the right, creating a bright lens flare effect. Other buildings of varying heights are visible in the background, and palm trees are silhouetted in the foreground.

Company Profile

Advisory

Smart Decisions. Lasting Value.

Only 38% of the African population has access to electricity, the penetration rate for internet is less than 10%, while only a quarter of Africa's road network is paved.

The poor state of infrastructure in Africa reduces national economic growth by 2% every year and cuts business productivity by as much as 40%.

Crowe Infrastructure Africa is working with the public and private sectors in addressing Africa's infrastructure development and financing gaps for sustained and increased economic growth and more equal wealth distribution in Africa.

Crowe Global

Ranked the eighth largest accounting network in the world, Crowe Global has over 220 independent accounting and advisory firms in more than 146 countries.

Strategy

Developing and tailoring infrastructure development strategies.

We help clients make strategic decisions today that create lasting value tomorrow.

Policy

Supporting regulatory policy and regulations.

We help clients develop effective and responsive policies and procedures to direct and guide infrastructure investments.

Business Case

Analyzing market demand for services, implementation capacity and return on investment.

We assess, analyze and model investments to ensure value for money and market responsiveness.

Project Development

Developing commercially viable project investment proposals that meet the highest standards.

We help clients develop bankable investment proposals that meet legal, technical, financial, commercial and de-risking standards of excellence.

Financial Structuring

Structuring and facilitating project financing and anticipated revenue, taxes and transfers for market success.

We help clients design and obtain financing and structure arrangements to ensure financial and commercial viability.

Transaction Advisory

Marketing deals to public and private sector actors to bring deals to financial close.

We help clients link key investors with projects and close deals that improve infrastructure in Africa.

Contract Monitoring

Monitoring and evaluating project implementation and milestone achievement.

We help clients monitor and evaluate key performance indicators and milestones to meet obligations and achieve results.

About Us

Crowe Infrastructure Africa combines the advantages of a global firm with localized expertise in infrastructure development consulting and advisory work in Sub-Saharan Africa.

Based in Nairobi, Kenya, Crowe Infrastructure Africa has regional offices throughout the continent and collaborates with Crowe Global member firms operating in 45 countries in Africa.

With a strong background of its founding partners in the financial services industry, specific consulting services offered by Crowe Infrastructure Africa revolve around various forms of private sector investment and management of infrastructure services, such as Public-Private Partnerships, in electricity and water supply, transport, municipal services, and social infrastructure.

Crowe Infrastructure Africa, Ltd. is a member of Crowe Global, a Swiss Verein. Each member firm of Crowe Global is a separate and independent legal entity. Crowe Infrastructure Africa and its affiliates are not responsible or liable for any acts or omissions of Crowe Global or any other member of Crowe Global.
