Revised 2023 Budget:

New Government, New Plans

9 March 2023 | 9AM – 1PM

Introduction

The last general election in Malaysia concluded with much excitement and anticipation as it represented a major shift in the country's political landscape and showcased the power of the people to effect change through the democratic process. The election saw a high voter turnout, especially among the younger generation following a constitutional amendment to reduce the voting age from 21 to 18.

Stepping into the year 2023, all eyes are on the newly elected government and their plans for the country. Malaysians especially those in the business sector have high expectations for more dynamism and positive changes to the business environment. Issues such as taxation, inflation, digitalization and business expansion will be on top of their minds.

As such, we look forward to the revisions to the Malaysia Budget 2023 which will not only represent the country's financial plan for the fiscal year 2023 but also showcase the new government's policies and priorities.

Don't miss this opportunity to stay ahead of the curve and understand the impact of the Malaysia Budget 2023 on you and your business.

Environmental, Social, and Governance (ESG) is an issue that has become increasingly relevant in recent years, as businesses have come under greater scrutiny for their impact on the environment and society. Governments have also taken notice of this trend and have taken steps to promote ESG by creating tax policies, tax incentives, and government grants that encourage companies to adopt ESG practices. What are these tax policies and incentives in Malaysia?

Tax is a burden that is inevitable, and taxpayers are required to pay fair taxes. One can say that paying taxes is a dubious honor. Others consider it a responsibility and a privilege. Nevertheless, minimising taxes is an ongoing challenge and a lucrative venture to the informed. We will share on these opportunities in 2023 such as tax refunds, tax on foreign sourced income and taxation of gains from forced acquisitions of property by the government.
