Companies that do not have an existing GIRO arrangement should apply for GIRO to take advantage of the interest-free instalments scheme for payment of corporate income tax on ECI.</p> <p>Companies seeking to take advantage of the additional two months of interest-free instalments should also look into the filing of the ECI as early as possible after the financial year end to be entitled for maximum interest-free instalments.</p>	 <a href="https://bit.ly/2V6ugx8">https://bit.ly/2V6ugx8</a>
<b>Enhanced Carry-Back Relief System</b>	Unabsorbed capital allowances and trade losses for YA 2020, subject to conditions, may be carried back up to three immediate preceding YAs. The amount of carry-back allowed will be capped at S\$100,000.	There is no need to wait for the actual tax filing for YA 2020 to elect for the carry-back relief. There is an option to elect for the carry-back relief before the actual tax filing to carry back the estimated qualifying deductions. The tax refund will be processed by the Inland Revenue Authority of Singapore (IRAS) within 3 months from the date the election for carry-back relief is made.	 <a href="https://bit.ly/2K1V5w0">https://bit.ly/2K1V5w0</a>
<b>Option to Accelerate the Write-Off of the Cost of Acquiring Plant and Machinery</b>	Qualifying capital expenditure incurred on the acquisition of plant and machinery in the Financial Year 2020 (YA 2021) will qualify for accelerated write-off over two years.
