

Doing business in Slovakia 2025

Accounting / Audit / Tax / Advisory

Welcome

to Doing Business in Slovakia

Doing Business in Slovakia has been prepared by the Crowe Global member firm in Slovakia in order to provide general information for persons planning to do business with or in the country concerned and/or individuals intending to live and work in Slovakia temporarily or permanently.

This Guide includes relevant information about business operations and taxation matters. It is intended to assist organizations that are considering establishing a business in Slovakia either as a separate entity or as a subsidiary of an existing foreign company. It will also be helpful to anyone planning to come to Slovakia to work and live here either on secondment or as a permanent life choice.

Unless noted otherwise, the information contained in this Guide is believed to be accurate as of 1 January 2025. However, general publications of this nature cannot be used and are not intended to be used as a substitute for professional guidance specific to the reader's particular circumstances.

All lasting business is built on friendship.

Alfred A. Montapert

About Crowe Global

Crowe Global is ranked among the top 10 global accounting networks with more than 180 independent accounting and advisory services firms in about 140 countries around the world. Crowe Global's member firms are committed to impeccable quality service, highly integrated service delivery processes and a common set of core values that guide decisions daily.

Each firm is well-established as a leader in its national business community and is staffed by nationals, thereby providing the knowledge of local laws and customs which is important to clients undertaking new ventures or expanding into other countries. Crowe Global member firms are known for their personal service to privately and publicly held businesses in all sectors and have built an international reputation in the areas of audit, tax and advisory services.

Financial transaction tax

Introduction	Starting January 1, 2025, Slovakia introduces a Financial Transaction Tax (FTT). The first taxable period will be April 2025
Taxpayers	The tax applies to entrepreneurs, legal entities and branches of foreign businesses, who are clients of payment services providers executing financial transactions.
Taxpayers vs. Tax Collectors	Payment service providers (banks and similar institutions) with a registered office or branch in Slovakia will collect and remit tax to the Tax Authority. If a Slovak entrepreneur uses a foreign payment service provider without a local branch, the entrepreneur must report and pay the tax directly.
Subject of Tax	Financial transactions that result in a deduction funds from a business account. The use of a payment card issued for a business account. Reallocated costs related to financial transactions linked to business activities in Slovakia.
Exempt transactions	Tax and social security payments, Purchases of government bonds, Certain securities transactions made by brokers on behalf of clients.
Tax Base and Rates	Tax base: The amount deducted from taxpayer's account. Standard rate: 0,4%, maximum 40 Eur from the tax base. Annual fee for business payment cards: 2 Eur per card. Reallocated costs: Subject to 0,4% tax with no cap.
Compliance and Reporting	Tax period: Calendar month. Filing deadline: The end of the month following the taxable period. Entrepreneurs without a business bank account must open one by March 31, 2025.

Other significant business-related taxes

Description of other taxes	Other direct taxes: Motor vehicle tax, Municipality taxes, Insurance tax; Indirect taxes: Excise duties from electricity, alcohol, beer, wine, gas, tobacco, etc.
----------------------------	--

Incentives

Investment incentives	There is a regional investment incentive - the applications can be submitted mostly for industrial work, technological centers and centers of business services
R&D incentives	1) Deduction of R&D Costs to support and promote R&D 2) Patent Box – Income Tax Deduction from the sales of products produced based on a patent
Young employees, elderly employees	Students and elderly employees do not pay the social insurance if the salary is up to 200.00 EUR per month
Educational incentives	For dual education: 3 200.00 EUR per student who worked more than 400 hours/year 1 600.00 EUR per student who worked more than 200 hours/year
Other special incentives/ tax regimes and opportunities for business models (where relevant)	Social insurance relieves when a person on a long term unemployment is employed

Tax liabilities

	For taxpayers	For directors (chief officers)	For shareholders
<i>Binding opinion/ Advanced tax rulings</i>	It is possible to request a binding opinion from the Financial Directorate (on the application of tax laws in the specific areas)	n/a	n/a

<i>Penalties for late payment of tax</i>	If payment is delayed, interest on the amount owed is charged which is calculated as an annual percentage on the outstanding amount. The penalties levied by the Tax Office will depend on the time elapsed from the deadline for filing the regular tax return to the date of filing the amended tax return or the start of the tax audit, e.g. 3% a year for self-assessment via an amended tax return, 10% a year for an assessment made by the Tax Office during a tax audit. *	n/a	n/a
<i>Tax misdemeanor provisions</i>	The Financial Administration Criminal Office, besides other things, manages duties in connection with the detection of criminal offences involving violations of tax laws in the area of value added tax and excise duties or customs laws	n/a	n/a
<i>Criminal provisions</i>	See "Tax misdemeanor provisions"	n/a	n/a
<i>Piercing the corporate veil</i>	n/a	n/a	n/a
<i>Advanced pricing agreements</i>	Advance pricing agreements are possible only in certain cases e.g. in case of transfer pricing or in case of determining the tax base for a permanent establishment. They are valid for maximum of 5 years.	n/a	n/a

* Rates 3%, 10% are applicable only in case the basic rate by ECB is lower than 3%. Otherwise the basic rate of ECB and its multiplication is used.
