Financial Reporting Disclosure Checklist for Charities

The following checklist is designed to assist charities in preparing accruals-based accounts to comply with the Charities SORP based on FRS102.

Background

The Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and the Republic of Ireland (the SORP) is issued by the Charity Commission and the Office of the Scottish Charity Regulator in their role as the joint SORP-making body, recognised by the Financial Reporting Council.

In England & Wales, the Charities SORP is underpinned by its related Regulations under Part 8 of the Charities Act 2011. In Scotland, the related Regulations are made under the Charities and Trustee Investment Act (Scotland) 2005.

Application of the SORP

Except where an alternative reporting framework sets out in legislation or regulation, or another SORP applies, the accounting recommendations of the SORP apply to all charities in the UK that prepare accounts on the accruals basis to give a true and fair view of a charity's financial position and financial activities regardless of their size, constitution or complexity. In the Republic of Ireland the SORP sets out recommended best practice.

For a charity to state that its report and accounts are compliant with the SORP, both its trustees' annual report and its accounts must be prepared fully in accordance with the reporting and accounting recommendations of this SORP. To state that their accounts have been prepared in accordance with this SORP, a charity must:

- consider those SORP modules that apply to the activities, transactions and circumstances of the reporting charity;
- comply with applicable format requirements and accounting treatments specified by this SORP and provide those disclosures that this SORP specifies must be provided;
- make any additional disclosures required by the FRS 102; and
- only depart from the requirements of this SORP or the FRS 102 if necessary for the accounts to give a true and fair view.

The SORP sets out how charities are expected to apply FRS 102 to their particular activities and transactions, and explains how charities should present and disclose their activities and funds within their accounts. The SORP also sets out the content of the trustees' annual report which accompanies the accounts (financial statements). The trustees' annual report provides the context for, and a narrative explanation of, the financial information contained in the accounts.

It should be noted that, in the hierarchy established in accounting standards, FRS 102 requirements and legal requirements take precedence over the SORP. Therefore should an update to FRS 102 or a change in relevant legislation be made after the publication of the SORP, any of the provisions of the SORP that conflict with the updated FRS 102 or relevant legislation cease to have effect.

Use of the terms “must”, “should” and “may”

The SORP uses different terms to distinguish those requirements that must be followed in order to comply with the SORP from other recommendations which charities can opt to follow when preparing the trustees’ annual report and accounts.

- **“MUST”** indicates those elements that are important to the reader of the trustees’ annual report that must be included within the report or to identify particular accounting treatments, disclosures or presentational requirements that are likely to affect the ability of the accounts to give a true and fair view if not applied to material transactions or items. Where the SORP states that a recommendation is one which must be followed, non-adherence to that recommendation is a departure from the SORP.
- **“Should”** refers to items in the trustees’ annual report or the accounts for those recommendations aimed at advancing standards of financial reporting as a matter of good practice. While charities are encouraged to follow all the SORP’s recommendations, a failure to follow a “should” recommendation with respect to the report or the accounts is not regarded as a departure from the SORP.
- **“May”** refers to items in the trustees’ annual report or an approach to a particular disclosure that a charity may choose to adopt or identifies that an alternative accounting treatment or disclosure of a transaction or event is allowed by the SORP. Charities may choose whether such examples or alternative treatments are adopted at their discretion.

Larger Charities

Larger charities is a term used in the SORP to identify those charities with a gross income exceeding £500,000 (UK) or 500,000 euros (Republic of Ireland) in the reporting period.

Additional disclosures required for larger charities have been separately identified in this checklist.

Other requirements

Charities applying the SORP may also be subject to specific regulations or legal requirements based on how they are constituted or their jurisdiction(s) of formation, operation or registration. For example, charities constituted as companies will need to meet the reporting requirements of company law. Whilst the SORP has been prepared to be consistent with the requirements of company and other relevant law and regulation, charities will need to ensure that any particular accounting requirements and disclosures applicable to them are also met.

Preparers of charity financial statements may also need to refer to FRS 102 as the disclosures listed in the SORP, and therefore in this checklist, are not exhaustive.

Overall reporting objectives

The report and accounts should not be viewed simply as a statutory requirement or a technical exercise. The report and accounts, when read together, should help users of the information to understand what the charity is set up to do, the resources available to it, how these resources have been used and what has been achieved as a result of its activities.

This checklist is published for general guidance and therefore without responsibility on the part of Crowe U.K. LLP or Charity Finance Group for loss occasioned to any person acting, or refraining from action, as a result of any information published herein.
