

# LEVELLING UP GOALS

Social Mobility  
PLEDGE

**As an organisation, we are fully committed to boosting social mobility and supporting the Levelling Up Goals.**

We are fully focused on identifying key aspects of the Levelling Up process and meeting the challenges head on as we emerge from Covid-19.

The identification of the Levelling Up Goals provides the ideal platform to both measure and report the impact our practices have.

Our listing on the Levelling Up Index demonstrates both internally and externally our long term commitment to Levelling Up as a core value.

Working in partnership with the Social Mobility Pledge allows us to enhance and broaden our in-depth knowledge of all aspects of Levelling Up. This will remain at our core as we progress throughout the year and play our part in building a fairer, levelled up Britain.
