Assessed Tax Losses
in Companies and
Close Corporations

As part of our commentary on Corporate Income Tax, we pointed out that the use of assessed tax losses is limited in respect of years of assessment ending on or after 31 March 2023.

This limitation will be amended to exclude companies in the process of liquidation, deregistration or winding up.

This limitation is described as follows –

In the case of companies and close corporations, any assessed loss which has been carried forward from the previous year of assessment, shall be set-off against income in the current year, to the extent that the amount of such set-off does not exceed the higher of R1 million and 80% of the amount of taxable income determined before taking into account this assessed loss. Any excess not utilised will be carried forward to the following tax year.

Examples in respect of years ending on or after 31 March 2023.
